

Let the Sage 100 latest technology work for you

Maximize your workflow with the modernized cash flow processes, multiple payment options, and improved user experience of Sage 100 2017 solution.

Sage 100 just keeps getting better, smarter, and more efficient. With recent features like credit card verification and ACH transaction payments, you can have the flexible payment options that enable you to increase your cash flow. Pair the latest and greatest technology of Sage 100c with the workflow tools of Sage ERP 2015, and you've got the most complete accounting solution to help your business grow.

Sage 100c 2017 enhances search capabilities

Change the way you search for information with its restructured search engine, providing improved access to your secure data.

Sage 100 2017 includes intelligent upgrades

With these features, you can enjoy an intuitive user experience and increased cash flow, while your customers enjoy a wide range of payment options and better overall satisfaction:

- 1. Credit card verification**—Import and store level 3 commodity codes for authorization, which will help save time and make it easier to identify items on a sales order.
- 2. ACH cash receipts**—Allow customers to pay electronically by check with ACH transaction payments. With an immediate failure notification, you will get paid faster and with more flexibility.
- 3. In-product chat**—With the new Sage Customer Support Chat function, get all of your questions answered in real time between the hours of 9 a.m. and 8 p.m. ET from within the product.
- 4. Sage Intelligence update**—Provide users with the ability to download and import additional report templates from the Sage Intelligence website.
- 5. Optimized user experience**—Enjoy an intuitive and effective user experience with visual improvements in the user interface, including font changes and ribbon-style search capabilities.

Sage 100 2016 gives you a competitive edge

With this version of Sage 100 software, you experience a smoother work flow and greater flexibility thanks to:

- 1. Affordable Care Act compliance**—Ensure your company is meeting new requirements of the ACA.
- 2. Outsourced payroll**—Upload general ledger account numbers and bank codes to Sage Payroll Services and easily download payroll transactions back into Transaction Journal Entry.
- 3. Everyday tasks simplified**—Easily enter data and print with new preference settings.
- 4. Accounts payable reporting and printing options**—Use the new electronic payment vendors field to specify whether or not vendors who accept electronic payments are included on the Aged Invoice Report.
- 5. Accounts receivable**—Add, view, and edit invoice-specific memos in repetitive invoice entry.
- 6. Automated sales order expiration dates**—Simplify data entry with the addition of a default expiration date and an expanded 10-character check number field.
- 7. Custom office**—Resize a field to specify whether an object's position changes based on window resizing, or if it remains fixed relative to an anchor point.
- 8. Sage Fixed Assets**—Take advantage of the modernized Sage 100 2016.1 and Sage 100c Fixed Assets Link to use the business framework, also available for Sage 100 Premium.
- 9. Credit card processing**—Apply, activate, and manage credit payments in the Sage Payment Center, right from your Sage 100 solution.

Sage 100 ERP 2015 keeps you running smoothly

Make life easier for your accounting staff and gain flexibility when creating reports with:

- 1. Optimized financial workflows and reconciliation**—Save time with automated one-click GL reversal capability, plus sort by multiple columns when necessary. Receive out-of-balance notifications in GL detail reports. You can also:
 - Use enhanced sort and selection options for a variety of audit reports
 - Enter vendor names up to 50 characters
 - Perform transfers on invoices for credit card vendors
- 2. Improved preauthorization processing**—Take advantage of the ability to run a second preauthorization after the first expires. Utilize Level 3 credit card processing to reduce fees and create savings that can be passed on to vendors.
- 3. A streamlined purchase order process**—Retain your purchase order history and convert selected companies when creating history. Copy from existing purchase orders, create new PO history inquiries, and easily track incomplete vendor orders.

Meet all of your business needs with Sage 100 and Sage 100c. Call 800-719-3307 and upgrade to the latest version of Sage 100 2017.1 today!
